

- Store, view, share all your multimedia files
- Browse and push new boundaries from Internet
- Enjoy an amazing picture quality

Enter a new era of Home Digital Entertainment with the new Mediadisk LNX HD Series !

The brand new multimedia platform will bring you into a new experience of High Definition with its new unique and innovative features. More than a multimedia server, you can not only browse and share all your files from the network but also stream them directly from Internet or download from built-in Torrent engine. Enjoy eye-catching MKV / H264 movies and crystal-clear DTS and Dolby Digital sound from your home cinema system. Browse your favorite webservices directly from TV : Youtube, Picasa and more while comfortably seated in your sofa. Last but not least, its design and trendy form-factor will perfectly fit your living-room.
