TO MAKE FOR NEWS HORIZONS !

Mobile video player: The alliance of design and technology

Enter to a new dimension with the first multimedia player by Memup: **ORIZON**.

ORIZON by Memup has a broad range of attractive features.

Design and high technology

With ORIZON by Memup, you can view your photos and videos everywhere, on a large 4.3" TFT screen with bright and sharp colours.

You can also take your favourite tunes with you wherever you go, listen to your favourite radio shows and record voice memos or conversations.

With its compact design and fine lines, it shall become your travelling companion.

Records all video sources: television and web, and all audio sources: FM radio and voice

You can now view and show your friends your recorded videos, films, shows, reports, interviews, music videos, etc., whenever you want, via the S-video connector. You can also create your own playlists. The possibilities are endless!

High autonomy

Thanks to its Lithium batter, you can easily listen to music and watch videos (observed autonomy of up to 4 hours).

Show your friends your current videos and prized photos. To recharge the battery, simply connect ORIZON to its AC adapter.

Simple navigation

Thanks to its user-friendly navigation interface and control buttons, you can easily navigate through the different menus.

The most advanced features on the market:

- Can be used to watch videos and photos, to listen to music and the radio and to read text
- Video, TV, audio, FM-radio and voice recording
- Built-in high output speakers with High-Resolution sound
- Large storage capacity: 30 Gb
- Title and artist display
