

**RAID HIGH CAPACITY
BACKUP SOLUTION**

TITAN

1 to 2 TB

Features

High capacity RAID backup solution in a compact housing that contains two 3.5" hard disks

Gigantic capacity:
1 TB (1000 GB),
1.5 TB (1500 GB)
2 TB (2000 GB)

Double Interface:
eSATA II and USB 2.0

A hugely powerful backup solution

eSATA II 3 Gb/s :
5 times faster than USB 2.0
and 3 times faster than Firewire 800

High-speed 3.5" technology:
7200 rpm

An advanced backup system

that the user can configure at will for maximum speed, enormous capacity or extra data protection.

4 back-up modes: RAID 0 (high speed), RAID 1 (data security), BIG (maximum capacity) and JBOD (independent disks).

Easy-to-use backup software: Memup Pro Backup

GIGANTIC CAPACITY, DATA SECURITY AND HIGH PERFORMANCE

RAID HIGH CAPACITY BACKUP SOLUTION

A hugely powerful backup solution

Titan RAID is a revolutionary, futuristically styled, new external backup solution that combines **gigantic storage capacity** in a compact, two-hard disk housing with **extreme high performance, up to 5 times faster than current eSATA II standards.**

With features like an optimum disk speed of **7200 rpm**, a **theoretical transfer rate of 3 Gb per second** (eSATA II) and High Speed (USB 2.0), Memup Pro's Titan is capable of backing up enormous quantities of data in total security.

Titan is an extremely reliable, powerful and high-speed storage solution that is **ideal for backing up data in web server environments and in databases and multimedia applications:** video dubbing, graphic design/ 3D imaging, audio dubbing and **data sharing.**

Intelligent 4-mode backup design

The advanced backup system can be configured at will by the user for **maximum speed, enormous capacity or extra data protection.**

Titan offers a choice of backup modes which have been optimised for different types of use: **RAID 0** for **maximum speed**, **RAID 1** for **data security**, **BIG** for **maximum capacity** and **JBOD** for **independent disk** configurations.

Easy-to-use Memup Pro Backup software assures maximum data protection and **fully optimised backups** by allowing you to choose between three backup modes - complete, incremental or differential.

Easy to install and easy to use,

Titan Raid is external hot-pluggable, meaning that it is automatically recognised and ready for use after connection to your system's eSATA or USB port.

Titan raid is supplied as a ready-to use package and includes:

- " A compact housing with two hard disks - 7200 rpm, 3.5" eSATA II / USB 2.0
- " Memup Pro Backup software
- " eSATA and USB connection cables
- " A 12V / 3A adapter
- " Installation CD (installation software and Memup user manual)

Minimum configuration requirements:

System compatible PC - Pentium III 500Mhz
Windows 2000 - XP - Vista
eSATA II / I port, USB 2.0 / USB 1.1 port
